

# CSC Fluency Success!

...a summer **READING** program for Grades 1-4

## Early Reading is....

- Developed through listening to language
- Discerning letters and patterns with our eyes
- Learning to focus at close distances for longer periods of time
- Combining sounds and letters to recognize words
- Saying the words we've just recognized
- Comprehending meaning from a string of words we've just read

## About the Program...

Our Educational Therapists have designed a therapeutic **READING** program for children in grades 1-4. The assessment process determines the child's weak areas and through myriad fun and creative activities, the neurological processes that build a strong foundation for fluent reading are addressed. An individualized plan will be created and delivered one-on-one or in small groups, and scheduled as daily intervention or as needed, depending on the child's needs. Children who have struggled with reading begin to enjoy positive reading experiences as their neurological processes are strengthened and foundational skills are acquired. The results of the summer session will be evident in the fall school term as the child experiences success in...

- Word Reading (Decoding)
- Spelling
- Passage Reading
- Fluency
- Word Meanings
