

TOGETHER, WE CAN *Make Miracles* HAPPEN

DONATE NOW TO CHANGE THE LIFE OF A CHILD

Thanks to a private gift covering operating expenses, 100% of public donations go directly to providing therapies for children.

100%

1 in 6 children in the US are diagnosed with developmental delays. We help families who have children with the following challenges:

- ADHD
- Autism
- Sensory Processing Disorders
- Learning Disabilities
- Speech & Language Disorders
- Meeting Development Markers

114

114 grants have provided early intervention therapies and special needs therapy camps for kids whose families could not have otherwise afforded it.

1 in 6

7753

For children with developmental delays, early intervention is key. Every day without help is a lost opportunity for a child to experience academic, social and emotional success. Providing access to these therapies helps children thrive not just survive. The Child Success Foundation has provided children with 7,753 hours of therapy.

A donation of \$80 provides a child with 1 therapy session

\$80

OUR MISSION

The Child Success Foundation's mission is twofold: to expand awareness in the community about the developmental and learning challenges that children face and how to address them, and to provide funding to families who have children struggling with learning and developmental delays to access therapies they otherwise could not afford.
