

SPARK Middle School Academic Summer Support

Let us help your teen become an academic whiz this summer.

In a fun, interactive and engaging format, your child will learn practical ways to re-shape either their math or reading brains. Each child works one-on-one with a CSC learning specialist on an intensive program developed to fit individual needs. Whether your child needs some help with areas of difficulty or could benefit from a head start on next year's skill set, this summer program will be the "spark" needed for success.

Make this the Summer your Child Wins the Battle with Math or Reading!

- ✓ June thru August - Monday thru Friday
- ✓ For children entering 6th - 8th grade
- ✓ *Pre and post assessments to measure success
- ✓ Research based programs
- ✓ Delivered by CSC educational therapy department

Initial assessment required - please call to schedule

Customized Learning

Parent and teacher recommendations on areas of focus will be taken into consideration during initial assessments and when customizing each child's learning program.

For details; including dates & pricing please call 310-899-9597 or visit www.childsuccesscenter.com

We look forward to answering any of your questions and enrolling your child into our program. Spaces are limited so call today.
