

Concerned that your child may not have met their grade or age level learning milestones this past year?

The SPARK Program

Math • Reading • Writing • Spelling

CSC's SPARK Summer Program gives elementary and middle school students the academic boost and support they need to ignite their reading, writing and math brainpower.

Worried that online learning is leaving your child behind? SPARK Academic Evaluations

Our Educational Therapists are highly trained in the assessment and identification of individual learning styles and the underlying roots of childhood learning challenges. After assessment, parents receive feedback and an overview of an individualized program created to meet their child's specific needs.

The CSC Difference

Our Educational Therapists take a "whole child" approach, collaborating to identify and address underlying processing skills, and the emotional component of learning. Children learn skills AND gain confidence!

Date: June 28-July 2

Age: elementary & middle school

ENROLL NOW! Maximum of 4 children
