

presents **AFTER SCHOOL SOCIAL GROUPS** **SOCIAL BRAIN BUILDING**

TARGETED SKILLS

- ✓ How to make and sustain friendships
- ✓ Perspective taking
- ✓ Conversational turn taking
- ✓ Reading cues and body language
- ✓ Executive functioning
- ✓ Social problem solving

WHO ARE THE GROUPS FOR?

- Children ages 5-11 in regular education
- Children with average or near average language skills
- Children who need help building their social communication skills
- Groups led by speech language pathologist trained in Social Thinking™
- Curriculum is based on the Social Thinking methodology created by speech language pathologists Michelle Garcia Winner & Pamela Crooke

Children are scheduled for a social communication assessment then matched with peers with similar social communication skills

Groups are run in 8-week intervals
